Global Equities Growth SMA

A PPM Separately Managed Account (SMA)

Private Portfolio Managers Pty Limited (PPM) is a boutique investment manager specialising in the construction and management of direct investment portfolios for long term wealth creation, with a proven performance track record since 1995.

SMA Benefits

The PPM Global Equities Growth SMA is suitable to individual investors with a minimum initial investment of $50,000 who want to be able to access PPMs professional investment management expertise via a proven investment model.

PPM SMA investors retain the benefits of direct ownership including transparency and portability without the hassles of managing their investments directly. All portfolio administration is undertaken by the platform provider, including dividends, corporate actions, tax record-keeping and reporting. Existing investments can easily be transferred into (or out of) a PPM SMA without triggering capital gains tax consequences. Investors receive annual reporting and have online access 24/7 to the holdings of their model portfolio.

Investor Profile

PPM's Global Equities Growth SMA is designed for clients who:

- require a model global equity portfolio
- seek long term investment growth in a tax effective manner; and
- have long-term investment horizon of at least five years and accept the risk of price fluctuations during that period.

SMA Description

PPM Global Equities Growth SMA is an actively managed, concentrated portfolio of international equities listed on the ASX and major global exchanges (developed markets only).

The SMA is risk managed to protect investor capital and take equity positions in companies that have been identified through both a 'top down' thematic filter to identify sectors and opportunities, combined with a 'bottom up', deep research driven process to assess those companies that offer superior growth prospects over a 5 year term.

Investment Objective & Strategy

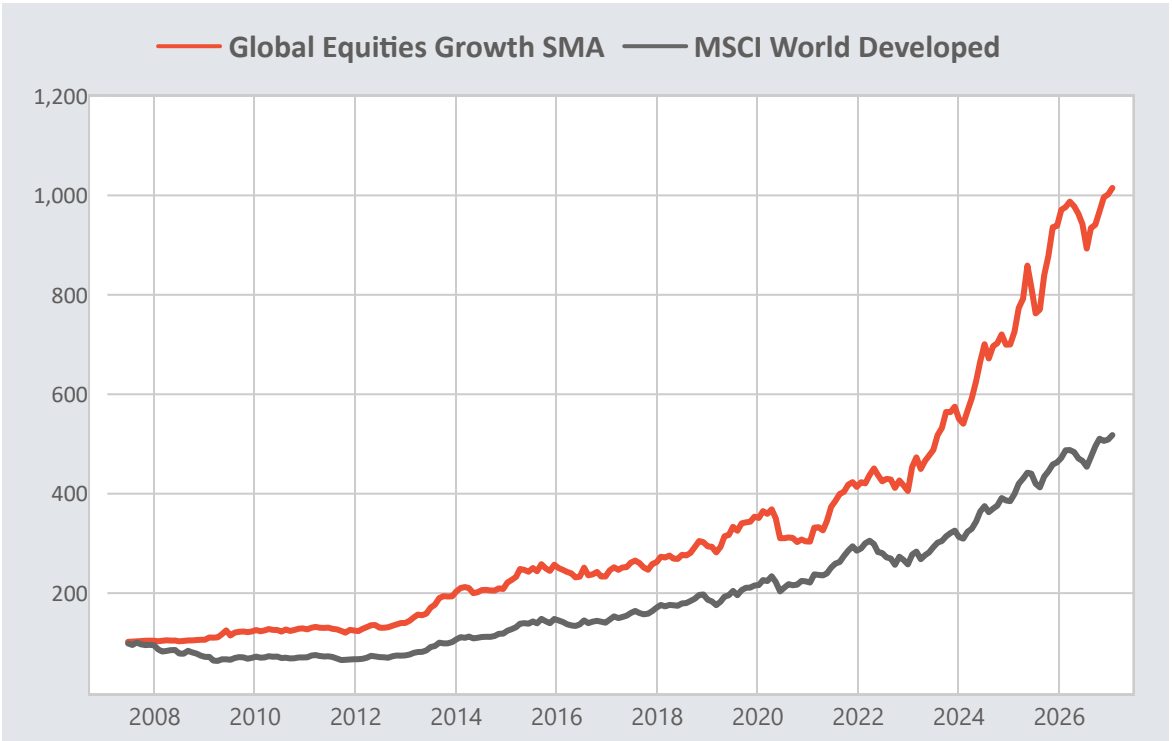

PPM Global Equities Growth SMA investment objective is to maximise long term capital growth total return. The SMA is constructed without consideration for index weighting or other artificial constraints with a strong focus on generating returns, preserving capital and effectively managing tax outcomes.
